April 19, 2018

ACUSTRIP Announces New Environmentally Sustainable Packaging

In a continued effort to meet customers' needs, ACUSTRIP Company, Inc. has expanded its aftermarket parts line to include new environmentally sustainable packaging. The new packaging provides enhanced product information such as instructions and color charts while reducing the use of plastics. Our CTS-3 480503 packages of four test strips are available in the new package.

About Acustrip

Founded in 1987, Acustrip Company has a well-deserved reputation as the manufacturer and provider of America's best coolant test strips. Acustrip manufactures diagnostic test strips for brake, power steering, water quality, mold/bacteria and DEF. Acustrip currently manufactures several products for OEM distribution and has been approved by major auto and equipment manufacturers. The Acustrip name is renowned worldwide for the quality dip and read diagnostics that provide convenience and accuracy for on site evaluation of fluids. Acustrip has become the choice source of test strips by fleet managers, DIYers, professional service providers, and major service centers and labs around the world.
